New Product

Universal Probe

Integrated Debug Tool for electronics products development

## All-in-one tool useful in various digital equipments development !
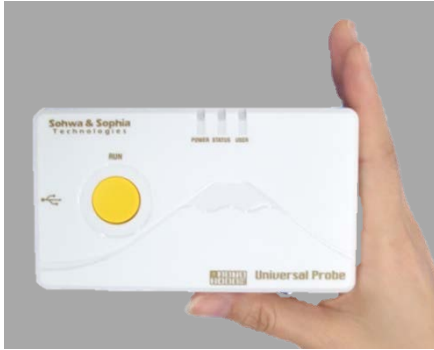

◆ Ideal tool for microprocessor based products development

◆ The world's No.1 cost performance for **US$199**

◆ Download to memory without PC enables to improve efficiency by **90%**

◆ **One unit** supports **6 functions**

2014, 4Q. Release

6 functions in this compact unit !

① Microprocessor development tool
② Flash memory writer
③ Boundary-scan tool
④ Logic analyzer
⑤ Protocol analyzer
⑥ Pattern generator
